

Your lesson note, ready to teach with before your tea gets cold.

StudyAI reads the material you already wrote and builds the flashcards, exam questions and study guides to go with it. You review, you approve, you publish. The evening is yours again.

One note in. A full study pack out.

Flashcards, questions, study guides, images

STEP 1

Add your note

Upload or paste the material you already teach from. Nothing new to write.

STEP 2

Let it build

Flashcards, quiz questions and a study guide appear in a couple of minutes.

STEP 3

You approve

Read it, fix anything, then publish. Nothing reaches a pupil unchecked.

STEP 4

Pupils revise

Cards resurface exactly what each pupil keeps getting wrong.

Teachers

Classes, materials, exams and a shared question bank in one place.

Pupils

One clear screen showing what to revise and which exam is next.

School leaders

Every class, every teacher, and every naira of AI spend, visible.

Minutes, not evenings

A term's revision material built from notes you already have.

Teacher approves first

Draft until a teacher publishes it. No surprises in front of a class.

Spend you control

A monthly AI budget per teacher, set by the school, enforced automatically.

Book a free walkthrough

We will set it up with your own subjects and classes.
