EAZY-LEARN

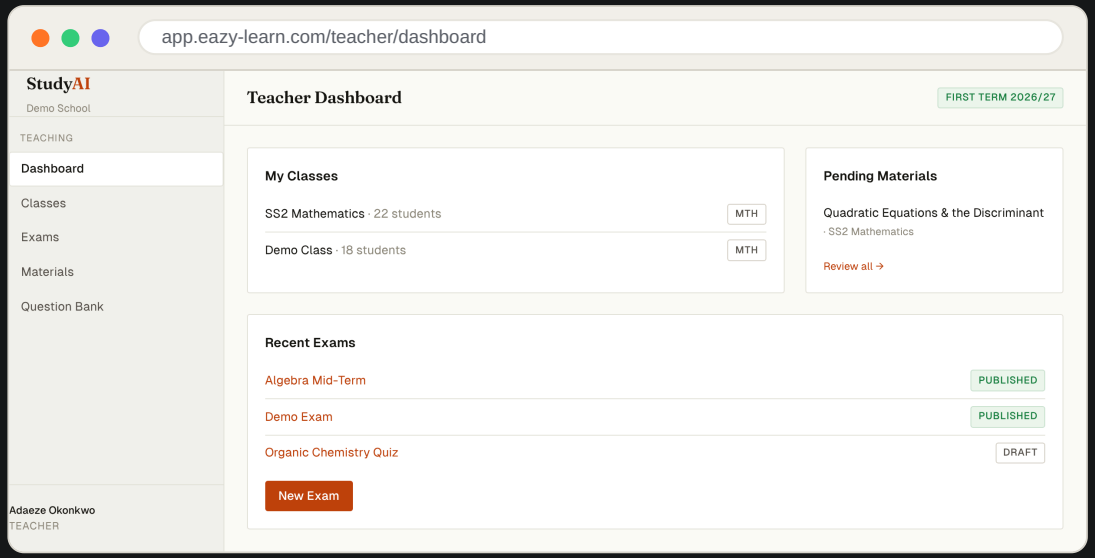

StudyAI

FOR SCHOOLS THAT WANT RESULTS THEY CAN SEE

Every lesson note becomes revision your pupils actually use.

StudyAI turns the notes your teachers already write into flashcards, exam questions and study guides. A teacher approves everything before a pupil ever sees it, and you control what it costs.

- **Teacher-approved AI, never raw output**
- **A monthly AI spend cap you set**
- **Built on your own syllabus and teachers**

HOW IT WORKS

From lesson notes to revision, in one afternoon.

No new curriculum to write. No extra staff. StudyAI works from what your teachers already produce.

1

Upload

Teachers drop in the notes they already write: PDF, slides, video or a link.

2

AI drafts

StudyAI reads them and drafts flashcards, exam questions and a structured study guide.

3

Teacher approves

Every card and question stays a draft until a teacher reviews, edits and approves it.

4

Pupils study

Approved material appears in each class, ready for spaced study and quizzes.

Your syllabus, your teachers

Material is built from your own notes, so it matches what your school actually teaches.

Nothing published unchecked

A pupil never sees raw AI output. A teacher is always the gatekeeper.

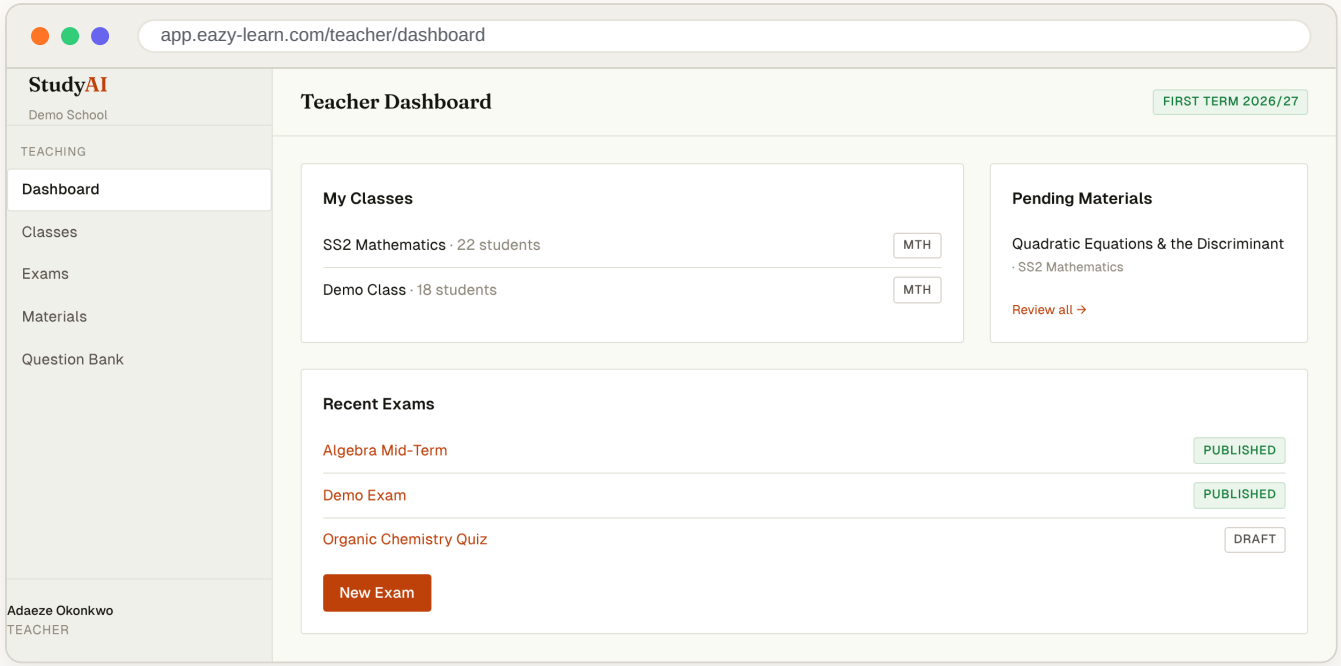

Spend you set

A monthly token limit per teacher means the bill can never surprise you.

THE EAZY-LEARN WAY **We teach. You learn. The revision takes care of itself.**

FOR TEACHERS

One screen for the whole teaching load.

Classes & rosters

Headcounts, subjects and terms at a glance.

Review queue

Nothing reaches a pupil until a teacher approves it.

Exams at a glance

Status and results for every assessment.

6
CLASSES

25
STUDENTS

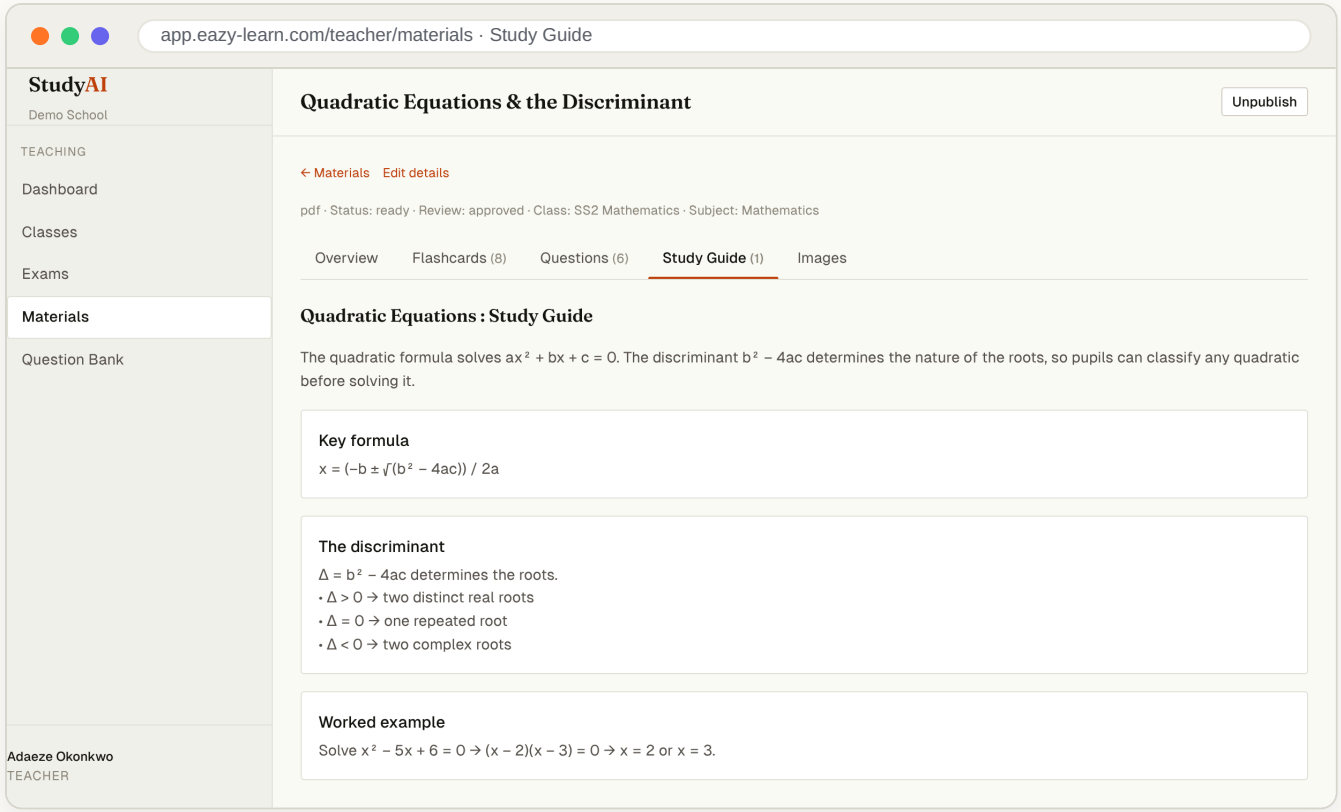

What you're looking at

- Every class with its live headcount and subject
- Draft vs published status on each exam
- The review queue: generated material awaiting approval
- One click to a new exam or a full review

FOR TEACHERS **Teachers keep the hours they used to lose to typing revision by hand.**

AI STUDY GUIDE

Every upload becomes a structured summary.

Structured like a good teacher

Sections, formulas and worked examples, not a wall of text.

Draft until approved

Approve, edit or reject in one click.

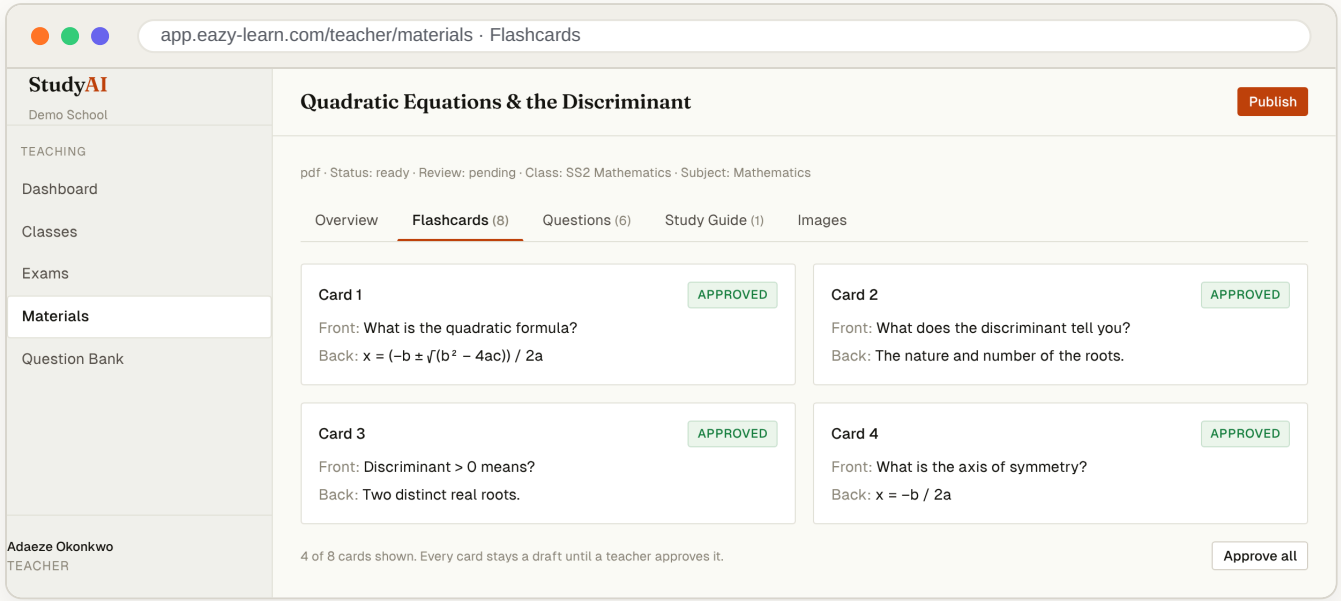

8	6	1
FLASHCARDS	QUESTIONS	GUIDE

- **What you're looking at**
- Key formula extracted and displayed cleanly
- A worked example, the way a teacher would show it
- Discriminant rules listed for instant recall
- Teacher can edit any line before publishing

FOR TEACHERS **One upload becomes a term of structured, approved revision.**

FLASHCARDS

Cards drafted by AI, approved by your teachers.

Ready to study

Each card pairs a prompt with a precise answer.

Approval on every card

Pupils only ever revise vetted material.

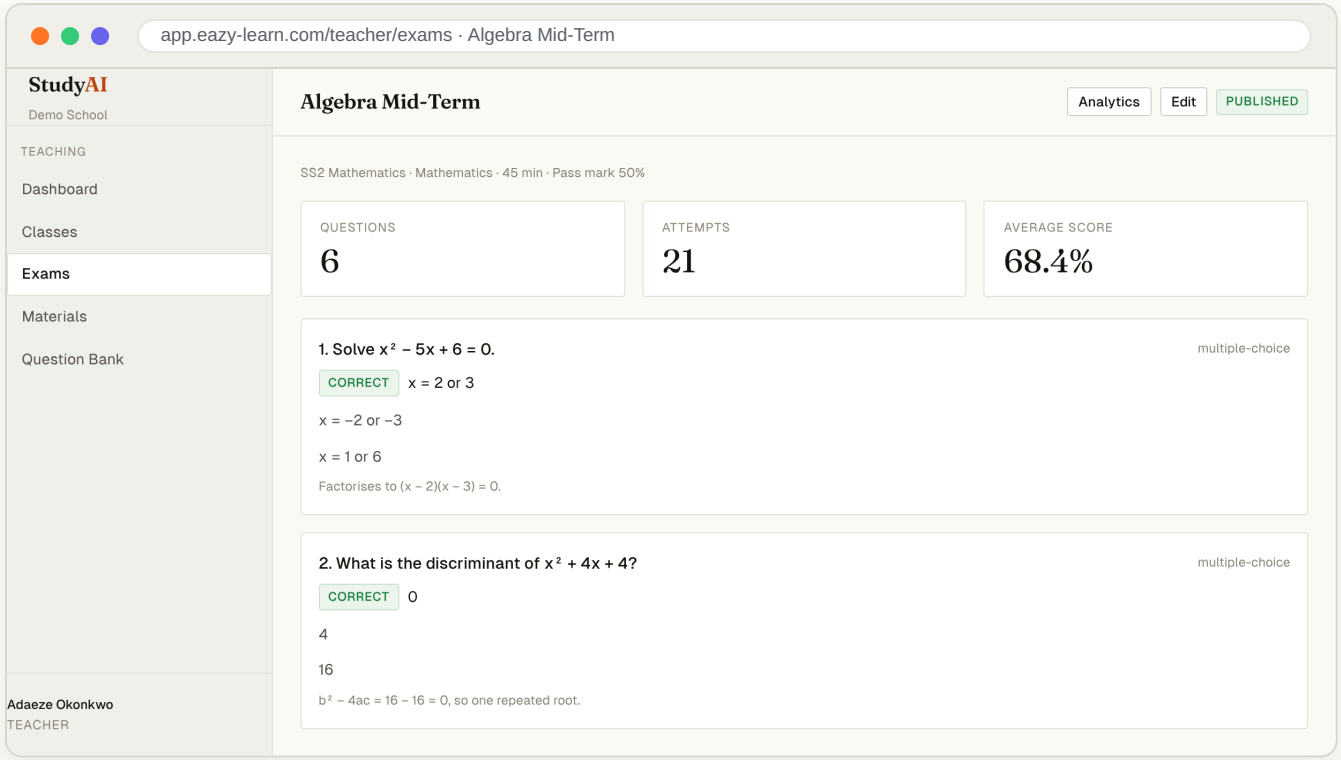

8	8
DRAFTED	APPROVED

- **What you're looking at**
- Front question, precise back answer
- Edit or delete any card before it ships
- An approved badge on every vetted card
- Approve-all to publish a whole set at once

QUALITY CONTROL **Every card carries a teacher's approval before a pupil sees it.**

QUIZZES & EXAMS

Set a quiz in minutes, see how it landed.

Questions with reasoning

Every question carries its answer and the why.

Instant performance

See participation and average the moment it closes.

21
ATTEMPTS

68%
AVG SCORE

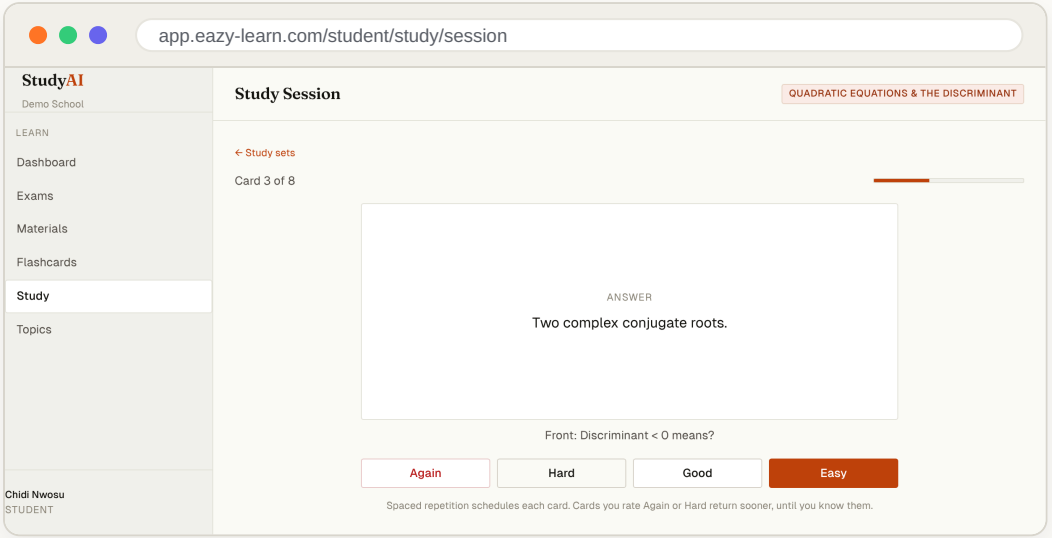

What you're looking at

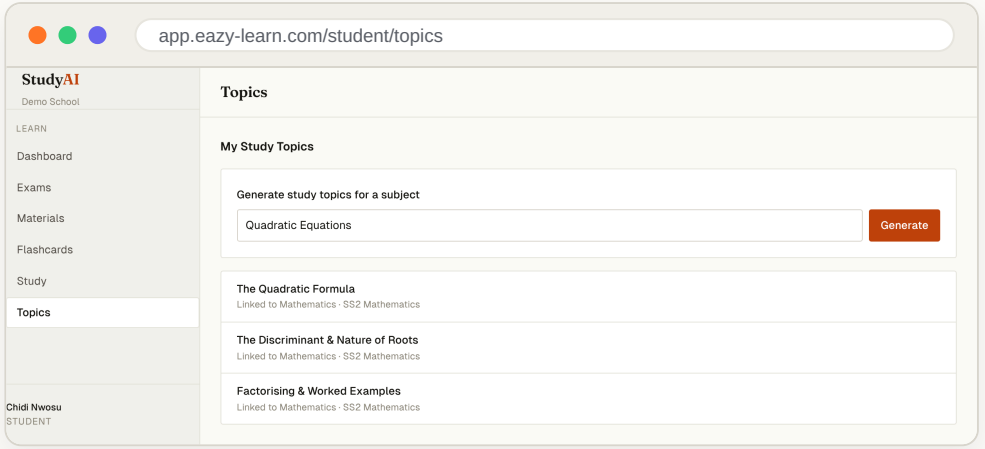

- Correct option flagged for fast marking
- Attempts and average score, live
- An explanation under every question
- Analytics one click from any exam

FOR TEACHERS **Set it, publish it, and see the average score the moment it closes.**

REINFORCEMENT

Difficult questions come back until they're known.

Spaced repetition

Cards rated Again or Hard return sooner, until the pupil knows them. Recall is scheduled, so nothing difficult is left behind.

Link any subject to topics

Generate a topic map for any subject and tie it to a class, so revision always matches the syllabus.

FOR STUDENTS **Nothing difficult gets left behind.**

EVERYTHING IN THE BOX

One system, four roles.

Owners & admins

- A hard cap on AI spend, set per teacher
- One dashboard for classes, members, results
- Invite codes and enrolment without paperwork
- Subjects and terms structured your way

Teachers

- Upload notes once, get cards, questions, guide
- Review and approve before anything publishes
- Question bank with difficulty levels
- Exam analytics: attempts and average score

Students

- Spaced-repetition flashcards that adapt to recall
- Difficult cards return sooner until known
- Quizzes with instant, explained results
- Topic generation for any subject

Platform & security

- Role-based access for every screen
- Teacher approval gate on all AI output
- Every AI request logged with its token cost
- Your school's data stays in your school

1

Book a free demo

We load your subjects and classes so you see your own school, not a sample.

2

Train your teachers

One sitting. Each teacher uploads a real lesson and watches it become revision.

3

Go live

Pupils join with invite codes. You watch the dashboard from day one.
