EAZY-LEARN

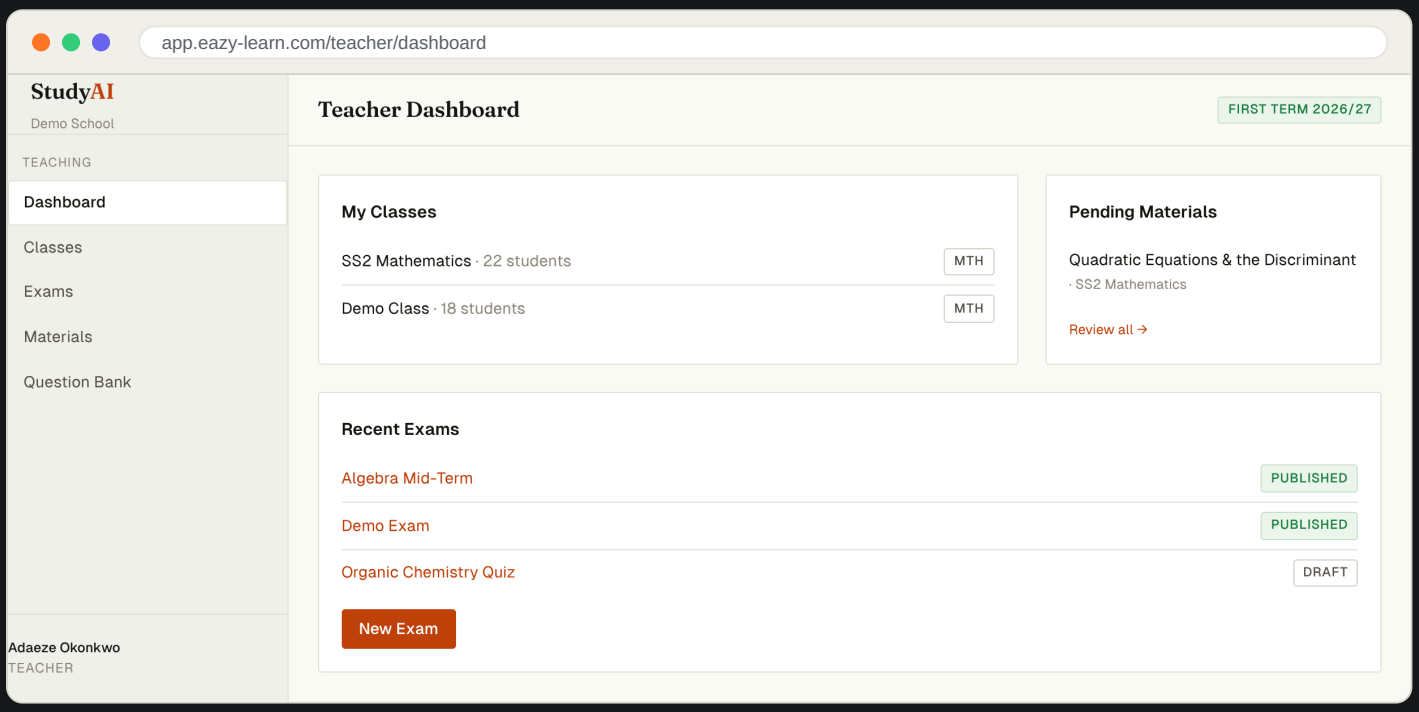

StudyAI

FOR SCHOOLS THAT WANT RESULTS THEY CAN SEE

# Every lesson note becomes revision your pupils actually use.

StudyAI turns the notes your teachers already write into flashcards, exam questions and study guides. A teacher approves everything before a pupil ever sees it, and you control what it costs.

- Teacher-approved AI, never raw output
- A monthly AI spend cap you set
- Built on your own syllabus and teachers

1

### Upload

Teachers drop in the notes they already write.

2

### AI drafts

Cards, questions and a study guide, in minutes.

3

### Approve

Nothing publishes until a teacher signs it off.

4

### Study

Pupils revise with spaced repetition and quizzes.
